INDUSTRY IMMERSION & CAPSTONE

Five-Month Industry Internship

Duration: 5 Months

A structured industry engagement that provides practical exposure to logistics and supply chain operations.

- Workplace-based learning in a relevant logistics or supply chain role
- Application of classroom concepts to real business situations
- Regular progress monitoring and industry feedback
- Submission of internship report and completion documentation

Capstone Project

Completed during the final phase

An applied project through which students examine a practical logistics or supply chain problem and present evidence-based recommendations.

- Problem identification and scope definition
- Data collection, analysis and interpretation
- Development of practical recommendations
- Final report and presentation

PROGRAMME COMPLETION REQUIREMENT

Successful completion of Trimester I, Trimester II, the five-month industry internship and the capstone project is required for completion of the programme.

Curriculum is subject to academic review and revision, as applicable.
